Dear [REDACTED]

STAT

As you know, the Central Intelligence Agency has been keenly interested in the renovation and construction of Building 213 at the Washington Navy Yard. I am aware of the fact that construction was originally scheduled for completion in August 1963 and that your company, understanding that it was in the national interest to expedite the project, undertook to complete it in December 1962. This was a difficult deadline to meet but your people put forth an extraordinary effort during the entire construction period to ensure completion on schedule.

This installation is of great importance to the national security, and the substantially improved capabilities now provided at Building 213 are due in large measure to the outstanding performance of your company.

I deeply appreciate the splendid cooperation of your organization in this common effort to provide a vital facility.

Sincerely,

John A. McCone
John A. McCone
Director
